## OWI RobotiKits Introduces Eco-Biker

The latest in OWI, Inc.® RobotiKits™ award-winning line of fun and educational robot building kits, the Eco-Biker is your child's own personal wind turbine.

Clip it to a bike's handlebars or anywhere with a breeze and watch as the fan powers a LED light. The stronger the wind, the faster the Eco-Biker pedals and the brighter the LED shines.

Eco-friendliness, sustainability and energy consciousness is the name of the game with this wind powered generator kit. Similar kits are purely for experimental purposes and have no practical application (or fun!). Most require a strong wind to even start the motor. After extensive experimentation, OWI RobotiKits has developed the most efficiently shaped fan, compact enough to take anywhere, just waiting to create memorable, educational moments.

Dimension of product: 3.74" x 2.4" x 4.92"  
Number of pieces: 45 pcs.  
Assembly time: 20 minutes

Suggested selling price: \$ 15.95 USD
